17-Jan-19

NATIONAL RECORDS CONFERENCE ON BIG DATA ERA MANAGEMENT AND THE BIG 4 AGENDA ON 26TH - 28TH FEB. 2019 AT IMPERIAL HOTEL, KISUMU.

Agencies are investing in big data platforms and hiring data scientists to take advantage of the patterns found in extremely large data sets to improve their business and processes. They also use artificial intelligence or machine learning to create algorithms that iteratively learn from data, and to find hidden insights without explicitly programming where to look.

In compliance with Constitutional provisions, and understanding that Kenya's economic development blue print, the Vision 2030, and embracing the Big Four Agenda envisaged by the head of state and government, Beninda & PMAK is convening the inaugural conference on modern records management practices in the new Big Data Era and emerging solutions on Information Security Management Systems and Cyber Crime Solutions. We have strategically partnered with Key Institutions and experts to ensure the conference exceeds expectations on both the government and private needs.

Kindly send the names of nominees within a reasonable time to enable us prepare for their participation logistics.

Yours Sincerely

Esalako Amboyi
Director of Training
